Group 3: Standards for database structure, organization and communications- and to fulfill regulatory requirements

Data Format(s)

- Standard Format
- Common Data Elements
- Annotations (DICOM or other)
- Metadata Format

Data Quality

- Image Quality
- Process(es) [Peer review]
- Authoring Tools

Databases

- Education Utilization
- Algorithm Evaluation
- Support for small/clinical/personal DB

Scalability

- Move it (transportability)
- How to deal with the data in the DB (query vs. actual data xfer)

Can the Image Repository model Tissue banks?

A question that needs actual investigation.
